PROFILE

Passionate about data science and machine learning, I hold a MCA with a strong foundation in Python, with blend of theoretical knowledge and hands on field experience through a major data science project. Eager to contribute my dedication and skills to the dynamic challenges.

EXPERTISE

- Git, GitHub
- Data Structures
- Algorithms
- Python
- Linux

LANGUAGES

English

Hindi

EDUCATION

Masters in Computer Application (2022 - 2024)

Tezpur University

Data structures, Algorithms, Software Engineering concepts, Operating System, Database Management, etc.

Ongoing self-education including theoretical understanding and hands-on application of machine learning algorithms, acquired through platforms like Coursera and edX.

Bachelors in Computer Application (2018 - 2021)

Maharshi Dayanand University

- Mathematics, Statistics
- Basic C, C++, Java
- etc.

Provided the background to pursue Masters in Computer Application.

PROJECTS

Movie Rating/Review Web Application

used Angular, bootstrap frameworks for front-end
