#### **EDUCATION**

• Tezpur University

Master of Computer Applications; CGPA: 7.50 (current)

• Maharshi Dayanand University

Bachelor of Computer Applications; Percentage: 87.70 %

Vijaya Senior Secondary School

Class 10 (CBSE); CGPA: 9.8

Class 12 (Science, Non-Medical, CBSE); Percentage: 86.40 %

Tezpur, Assam
Nov. 2022 - June. 2024
Rohtak, Haryana
Apr. 2018 - July 2021
Bahadurgarh, Haryana

Apr. 2015 - July 2016 Apr. 2017 - July 2018

## **PROJECTS**

• ChatCuisine | Flask, FastAPI, mySQL, Dialogflow

 Developed a conversational food ordering platform using Flask, FastAPI, and MySQL, integrated with Dialogflow chatbot for seamless user interaction. Users can place orders and track order status through natural language conversations with the chatbot

Personal Portfolio Website | Python, Flask, SQL

 Built a personal portfolio website using Flask, developed APIs, integrated project's section with MySql database, added login section to update database and website.

• Movie Rating / Review Web Application | HTML, CSS, TypeScript, Angular

 Developed a front-end application using Angular and hosted on GitHub pages as part of a mini project in 3rd semester of my Master's degree.

• pyTasker | Python

 Created a Python script to manage to-do's as part of the final project for the CS50P (Introduction to Programming using Python) certification course.

#### **CERTIFICATIONS**

- Three CS50 Certification Courses | Python, SQL, Web
  - o Part of CS50 course offered by Harvard
- NPTEL Joy of Computing using Python
  - o Part of MOOCs course for academic credit
- Foundation training and certification on digital commerce by HCLTech 2024
  - o Part of the university's enrollment students in the internship program

#### **SKILLS**

• **OS:** Linux (Debian, Arch, Nix), Windows

• Version Control Systems: Git

• Frameworks: Flask, Django, Angular

• **Testing tools:** Pytest

• **APIs**: FastAPI, Rest APIs

• Databases: MySQL

• Others: Problem Solving, Communication

• Languages: Python, C / C++, JavaScript
